Subject: Please Do Not Settle

Please do not settle this case with Microsoft.

They've been thoroughly exploiting their illegal monopoly for a decade now and have all the booty to show for it - BILLIONS of ill-gotten dollars in the bank.

All the works are in place for them to continue fully exploiting their monopoly.

Given the judgement against them and the outcome of the consent decree from 1995, how can WE THE PEOPLE give up in the punishment phase of the trial?

Microsoft Corp.has broken one of the biggest laws a corporation can break. Please press for one of the largest punishments in order to fit the crime.

Thanks!
